

CHM Electric Radiator

Electric direct heater with detection of "open" windows and Internet control

Wall convector CHM

The exclusive electric heater combines the features and design of a wall convector and combination radiator. High surface area, reduced weight, perfectly matched heat storage medium, high quality heat storage templates, thermostat with internet connectivity, open window detection and adaptive start control.

Wall convector CHM

24/7 programmable thermostat (DSM). Controllable via our LHZ app.

Our electric **CHM Convactor-Radiator** has the following additional features:

- Aluminium heating element
- Programmable weekly / daily function
- Adaptive start control
- Detects "open" windows - saving energy and money
- Wall mounting
- Saves comforting heat through the integrated Heat Retention Tablets
- Large surface area created by the metals ribbed front

Wall convector CHM

Thanks to the integrated aluminum heating coil, the electrical energy is immediately converted into heat and emitted within the high-quality heater through the very large surface in form of convection and radiant heat.

- double overheating protection
- Housing made entirely of metal
- No maintenance required at 100% efficiency
- Wall mounting
- Optionally with DSM thermostat or RF Eco receiver for "Internet Ready"
- Two special Heat Retention Tablets for long-lasting heat

Heat Retention Tablets 

Model	Power [Watt]	Dimensions [cm]	Protection class	Weight (kg)	Price (netto €)	Items-number
CHM 500 DSM	500	38 x 63 x 7	IP 20	10,0	538,00	440 605 330
CHM 1000 DSM	1000	68 x 63 x 7	IP 20	16,5	630,00	440 610 330
CHM 1500 DSM	1500	98 x 63 x 7	IP 20	23,5	740,00	440 615 330
CHM 2000 DSM	2000	98 x 63 x 7	IP 20	23,5	790,00	440 620 330
CHM 1000 H DSM (high)	1000	38 x 124 x 7	IP 20	16,5	790,00	440 110 330
CHM 500 RF	500	38 x 63 x 7	IP 20	10,0	504,00	440 605 950
